End: Friday, October 14, 2022 11:00:00 AM

Importance: High

Purpose: to resolve a few more things in the CMOM, and specifically the staffing/lift station inspection comment I attached the of clarification comments for the CMOM to this invite

We will also discuss the Wet Weather Investigation Plan. The plan is improved but we need to more clearly describe the work completed and planned for each area. Think of each area as a standalone project, and we will need details for each, including itemized planned and/or completed investigation activities, and schedules, where possible.

Thanks,
Dean
